PROFESSIONAL SUMMARY

I am a dedicated Python Developer with over **2 years** of extensive hands-on experience. Highly motivated and versatile Python web developer with experience building dynamic and user-friendly web applications. Proven ability to leverage various frameworks and libraries to create efficient, scalable, and secure web solutions.

EXPERIENCE

Python|Django Teaching
—(march-2024 to sep-2024)

- Taught Python programming and web development using Django to students/developers ranging from beginners to intermediate levels**.**
- Provided one-on-one guidance and mentorship, helping students build real-world projects and solve practical coding problems.
- Created structured lesson plans, tutorials, and exercises to enhance students' understanding of Python, Django, and related technologies.

Python Developer
YS-Wealth Management
—(June-2023 to Jan-2024)

- As a junior developer on the Financial Services website project, I played a vital role in building a user-friendly platform using Python and Django.
- Collaborating with the team, I contributed to creating features that enable clients to access and manage financial information easily.

Backend Developer(Freelance)
Food Online
—(July-2022 to may-2023)

- Developed and maintained backend services for a multi-vendor restaurant platform using Python and Django.
- Created and managed database Models for handling vendor data, menu items, orders, and customer information using PostgreSQL.
- Optimized query performance and ensured scalability to handle high traffic from multiple vendors.
- Worked closely with front-end developers and vendors to ensure seamless user experience.
